

Product overview

The Radiant is a unique flexible strip featuring neon-flex technology to achieve a sleek diffused light output.

The outer body of the strip is made from silicone rubber, which is great for recessing into grooves with a simple push-fit, as well as diffusing each individual diode for a uniform light output.

The LEDs within the silicone body are also mounted sideways, enabling the strip to flex around sweeping corners with ease.

Benefits

- LED Technology for long life
- Energy Saving (Good Lumens per watt ratio)
- Can be recessed or surface mounted
- Ideal for any Kitchen /Bathroom

Key Features

- Dimmable.
- Bendable
- High Lumens per Watts
- High Color Rendering Index >90
- Available in Warm , Natural and Cool White
